## Share and share price related incentive programs

The Annual General Meeting in 2023 adopted a long-term share-related incentive program ("LTI"), for 30 senior executives and key individuals in the Alleima Group, divided into three categories. For all participants, a personal investment in Alleima shares is required. Each acquired Alleima share entitles the participant to be allotted, after a period of three years, a certain number of Alleima shares free of charge (so called performance shares), provided that certain performance targets are met and subject to continuous employment and all acquired shares being held during

the three-year period. The number of performance shares that will finally be allotted to the participant for each acquired investment share is dependent on the development of the Alleima Group's (i) adjusted earnings per share, excluding (a) metal price effects and (b) items affecting comparability (IAC) ("adjusted EPS") and (ii) reduction of carbon dioxide (CO<sub>2</sub>). The two targets (adjusted EPS and CO<sub>2</sub> emission) are weighted among themselves at 90 and 10 percent, respectively, and added together to determine the total target fulfilment.

For information on the number of performance shares encompassed by the ongoing program in 2023, see note 3 on pages 73-74 of the Annual Report 2023.
